

it.unitn.healthcore.controller.
DoctorController.viewFutureAppointments

it.unitn.healthcore.controller.
PatientController.viewFutureAppointments

it.unitn.healthcore.business.
AppointmentService.getFutureAppointments

```
graph LR; A[it.unitn.healthcore.controller.  
DoctorController.viewFutureAppointments] --> C[it.unitn.healthcore.business.  
AppointmentService.getFutureAppointments]; B[it.unitn.healthcore.controller.  
PatientController.viewFutureAppointments] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, two white rectangular boxes represent controller methods: 'it.unitn.healthcore.controller.DoctorController.viewFutureAppointments' (top) and 'it.unitn.healthcore.controller.PatientController.viewFutureAppointments' (bottom). On the right, a gray rectangular box represents a business service method: 'it.unitn.healthcore.business.AppointmentService.getFutureAppointments'. Two blue arrows point from the right side of each controller box to the left side of the business service box, indicating that both controllers utilize the service's method.
